

COLD SMITH

Enterprises

Will to Chill

Cold Smith Enterprises is an integrated engineering solutions company. we are excited to offer end-to-end solutions for the cold chain and modular construction solutions.

Licence to Chill

Cold Smith was founded in 2010 in Bangalore, has got a collective experience of more than 15 years in Cold Chain Solutions, and has formed to assisting the wide requirements in setting up of cold rooms and freezer rooms in different parts of the country. After Cold Smith's formation, the company has attained a reputation in sales and services of Cold Chain solutions and served many reputed companies across the Country. Cold Smith integrates advanced refrigeration technologies and efficient construction methods to cater the best to its customers with our own manufacturing facility.

Our Solutions

Cold Chain Solution

Cold Smith integrates advanced refrigeration technologies and efficient construction methods to cater the best to the customers in cold chain solutions. Cold Smith design, customize, integrate technologies, manufacture components and constitute cold rooms. We cater to a vast range of clients like Agro, Hospitality, Pharma, Dairy, Food processing, Food service, Food retail & Retail.

Farm To Plate Cooling Solution

Cold Smith offers products right from farm to plate in cooling solutions like harvest level pre coolers, Ripening chambers, CA chambers, Pack house, process refrigeration, cold ware houses, distribution and cold dispensing at retail. Our Customized cold rooms for special applications can be like High humidity cold rooms for fruit and vegetable storage, Low humidity cold rooms for seed and hygroscopic material storage, Humidification and automation systems and Unique design for generating low humidity environment using specially designed refrigeration systems.

Our Solutions

State-Of-The-Art Refrigeration Manufacturers

We manufacture components in our own facilities to match with the customized design and requirements of our clients. We use Hermetic or semi-hermetic compressors of Air-cooled or water-cooled condensation systems with High efficiency evaporators equipped with auto defrost features and Hot gas defrost. The experience and technology makes us trump in the market.

Clean Rooms And Modular Constructions

Comprehensive clean room solution that adheres to the standards of statutory validating and certifying agencies like USFDA and EUGMP. It is best suited for pharmaceutical companies, food processing industries, precision engineering. segments, and electronic hardware manufacturers. Modular constructions can also used for domestic proposes.

Our Products

Cold Storage

Cold Smith design, customize, integrate technologies, manufacture components and constitute cold rooms which suits with the customer requirements. In today's changing global climate scenario, which presents threats to sustainable food production, the need for conservation of resources becomes more relevant. It calls for sustainable and eco-friendly preservation techniques to prevent wastage and maximize utilization.

Cold Room | Walk In Cold Room | Cold Storage Room |
Vegetable Cold Room | Pre Fabricated Cold Room |
Pharma Cold Room | Industrial Cold Room | Dairy Cold Room

Blast Chillers and Blast Freezers

Cold Smith offers Blast Freezers for instant freezing of food items with out loosing the nutritional values. We are capable of providing Blast freezing at any given time as per the clients requirement

Our Products

Freezer Rooms

Cold Smith Offer Freezer Rooms / Walk in Freezer Rooms, designed for any purpose as per the requirement. We cater for any type of segments like food processing, agro, and Marin Product Industries

Walk In Freezer | Meat Cold Storage | Fish Cold Storage | Ice Cream Cold Storage

Pre Coolers

Cold Smith Pre-cooler units are designed to handle the processing of freshly harvested fruits and vegetables every day. Procedures such as washing, brushing, grading, packing, cooling etc are done in Pre cooler Pack house

Our Products

Fruit Ripening Chambers

Engineered to simulate nature's ripening process without altering the taste or Freshness. Cold Smith manufacture Banana ripening chambers available with Pressurized/Reverse air flow evaporators and Humidity controlled rooms

Banana Ripening Chambers | Mango Ripening Chambers
Pineapple Ripening Chambers | Papaya Ripening Chambers

High And Low Humidity Cold Room

Cold Smith Offer customized High humidity cold rooms for fruit and vegetable storage and Low humidity cold rooms for seed and hygroscopic material storage which are fully automation systems

Our Products

Curd Incubator

Cold Smith manufacture Curd Incubation Chambers which are designed to ensure setting of curd in a scientific manner. We offer Curd Incubators and curd Chillers as per the order.

Bulk Milk Chillers

We are also offering Bulk Milk Chiller which is used to cool milk at 4°C and to maintain freshness of milk. Bulk Milk Chiller is the solution for bacteria free milk storage for Dairy/Milk Collection Centers.

Evaporator Coils and Condensing Unit Coil

Cold Smith manufacture Evaporators and coils of any capacity and capable of supply both in any quantity to anywhere. Our own branded products are available in market. Cold Smith produce our own Condensing Unit Coils and Condenser coils for our projects and we supply to other manufacturers too.
